COAL PROSPECTING AREAS.

Annual rent for license, per acre.

Any person who is desirous of prospecting Crown lands for coal may make application in the prescribed form to the proper Commissioner for a license to occupy any Crown lands described in the application, and not being of greater area than six hundred and forty acres, for the purpose of searching for coal thereon £0 0 6

The license may be renewed by the Minister for another year upon payment of a like sum of sixpence per acre of the land comprised therein, and upon proof to the satisfaction of the Minister that the licensee has during the period of the license used reasonable endeavours to search for coal upon the land, and has not used the land for any purpose not hereby authorised.

50 Vic., No. 20. (13 Oct., 1886.)

If during the period of the license or the renewed license the licensee desires so to do he may apply under the provisions of the Principal Act for a lease of any part of the land comprised in the license not exceeding three hundred and twenty acres in extent, and his application shall have precedence over the application of any other person for the same land.

The yearly rent of land leased for the purpose of mining for coal shall, instead of being at the rate of ten shillings per acre as provided by the Principal Act, be at the rate of sixpence per acre, and there shall also be reserved in the lease a royalty at the rate of threepence for every ton of coal raised from the land during the first ten years of the term of the lease, and at the rate of sixpence for every ton raised during the remainder of the term.

The times and mode of ascertaining the amount of any royalty so payable and the time for payment thereof shall be prescribed by the lease.

If land leased for the purpose of mining for coal is used for the purpose of mining for any other mineral, rent shall become payable in respect thereof at the rate of ten shillings per acre in addition to the royalty, if any, payable in respect of coal raised therefrom.

SPECIAL PRIVILEGE TO DISCOVERER OF NEW COAL FIELD, OR COAL AT GREAT DEPTHS.

52 Vic., No. 20, (13 Oct., 1886.)

When a licensee under the provisions of this Act—

(1) Discovers payable coal at a distance of not less than fifteen miles from any payable coal previously discovered, or,

(2) Discovers a payable seam of coal at a depth of not less than six hundred feet from the surface,

he shall be entitled to a lease of six hundred and forty acres of land, instead of three hundred and twenty acres as hereinbefore provided, and the royalty payable in respect of coal raised by the lessee shall in the first-mentioned case as to all coal, and in the second-mentioned case as to all coal raised from a depth of six hundred feet and upwards, be at the rate of one penny for every ton, instead of threepence as hereinbefore provided.

NOTE.—This Table is incomplete. Of 108 Mills in the Colony, details of 99 only have been supplied. A few Mill-owners habitually refuse to give the requisite information, but as the Mills themselves are mostly small the general results are not seriously affected. The value of articles manufactured at Sawmills is included in Table CCXIX.
